

Premium Quality Safes You Can Trust

Safes for Every Application - Commercial • Residential • Small Businesses

www.gardall.com

AMERICA'S SAFE COMPANY

The Finest Fire and Burglary Protection Available Anywhere in the World!

Gardall designs and manufactures fire and burglary resistive safes to meet or exceed many different standards and specifications.

Standard Safe Classifications

To understand how our safes are classified, here is a brief explanation of the labels you'll find on them.

Fire Protection – Two-Hour 1850° or One-Hour 1700°

Gardall fire-resistive safes meet or exceed Underwriters' Laboratories specifications for explosion, fire endurance and drop tests.

Two-Hour exposure to severe fire with an exterior temperature to 1850°F, and an interior temperature that does not exceed 350°F (paper chars at 405°F) for two hours and cool down.

One-Hour exposure to severe fire with an exterior temperature to 1700°F, and an interior temperature that does not exceed 350°F (paper chars at 405°F) for one hour and cool down.

Residential Security Container Burglary Label

Gardall's 2-Hour Burglary Fire (pg. 2) and FB (pg. 6) models have passed the U.L.-R.S.C. label test for burglary protection.

Burglary Protection

Gardall safes with the Class "B" or Class "C" Burglary Insurance Rating allow you to receive insurance coverage in accordance with the Broad Form and Mercantile Safe Insurance classifications. Pertinent insurance information is available from Insurance Service Office, 160 Water Street, New York, NY 10038.

Gardall safes can be supplied with an Underwriters' Laboratory Group II combination lock, U.L. listed key-op lock, U.L. listed dual key lock or a U.L. listed push button electronic lock.

Gardall Lifetime Replacement Warranty

Gardall Safe Corporation assures to the original end consumer, replacement – free of charge – of any Gardall Fire-Resistive Record Safe damaged beyond repair by fire with a then-current production model of a comparable value. This warranty is exclusive and in lieu of any warranty of merchantability, fitness for particular purpose or other warranties of qualities, whether expressed or implied, and of all other liabilities and obligations on the manufacturer's part.

Gardall Safe Corporation reserves the right to inspect any record safe prior to replacement. Copies of insurance reports or documents pertaining to fire loss will be furnished to Gardall Safe Corporation upon request.

Gardall Safe Corporation specifically assumes no liability for installation or other charges incurred by the owner in connection with the replacement of any record safe and assumes no liability for damage to contents or personal property contained in any such file or any consequential damages of any nature or description.

Gardall's New Two-Hour Burglary/Fire Safes, With the Most Features in the Industry

Can Your Business or Home Office Survive Record Losses From Fire?

Statistics show that if a company's records are lost in a fire, 17% can no longer furnish a financial statement, 14% suffer a reduction in credit rating and 43% go out of business completely. No home or business is safe from fire. Your vital records and possessions are only as safe as the quality of protection you provide for them. With Gardall fire resistive safes, you can be confident your records and valuables will survive.

Standard Features

- Thick 4¼" door with recessed anti-pry design. Safe walls are 2½" thick
- Five active bolts that lock in 3 directions, massive 1" diameter round bolts that extend deep into safes' body (Models 1812-3018)
- Center bolt down hole with hardware included for easy installation (hardware included)
- Plush suede quality interior to protect valuables
- UL listed, Group II combination lock
- UL 2-Hour Fire Label, furnace-tested to 1850°F for 2 hours. Interior temperature of safe was less than 350°F during the test and cool down
- UL-RSC Burglary Label Models 1812/2 – 3018/2
- Solid chrome-plated handle with shear point to prevent the safe from being forced open by handle attack
- Independent re-locker and hardplate to prevent drilling attack on locking mechanism
- **Gardall Lifetime Replacement Warranty** (see inside front cover)

Options

- Key locking dial
- Push button electronic lock
- Custom Paint with Gold trim – rich color exteriors (Black, Burgundy, or Hunter Green)

Standard colors: Sandstone or Gray.

**Your Best Protection
Against Fire or Theft**

Visit us online at
www.gardall.com
MADE IN THE U.S.A.

These Gardall fire resistive safes are designed and tested to withstand severe fire with outside temperatures reaching 1750°F for two hours. Safe interior temperatures will not exceed 350°F within two hours. The charring of paper occurs at 405°F. All Gardall fire resistive safes provide a comfortable margin that protects your valuables. But these models don't stop at just fire protection. They also have Class "B" burglary resistive features built in right at the factory.

And don't forget, every fire insurance policy states that "proof of loss" is required for claims. When your business or personnel inventories are locked inside a Gardall fire resistive safe, your "proof of loss" is protected 24 hours a day, 7 days a week.

Standard Features

- Five active locking bolts in a three-way configuration
- Three plated deadbolts extend into safe wall preventing entry if hinges are removed.
- Hard plate between the lock and dial ring.
- Independent relocking device designed to stop forced entry or drill attacks
- UL listed, Group II combination lock
- Heavy duty casters to allow the safe to be positioned easily (welded on)
- **Gardall Lifetime Replacement Warranty** (see inside front cover)

Manufacturers 2-Hour Fire Label

A safe similar in construction was tested by an independent testing facility. The furnace temperature reached 1750°F for a period of time exceeding 2 hours, before the interior of the safe reached 350°F.

Lock Options

- Push Button Electronic
- Mechanical Combination
- Single Key (Key-op)

Standard colors: Gray or sandstone.

The above mentioned Gardall fire resistive safes carry a 2-hour Manufacturers Fire Label.

All specifications are subject to change without notice.

Your Best Protection for
Media Against Fire or Theft

Visit us online at
www.gardall.com

With the growing number of homes and offices using computers, the protection of magnetic media has become extremely critical. The loss of personal as well as business records can be costly and devastating. The average fire safe is not designed to protect your electronic records. Gardall's media safes are designed to meet the additional requirements of protecting magnetic media. For your convenience we offer two sizes to choose from.

Standard Features

- Push button electronic lock with key day lock
- 3 way bolt work with bolt detent
- Push button electronic lock – 6-digit combo
- One or two removable shelves (model dependent)
- No anchoring holes
- Key operated day lock
- **Gardall Lifetime Replacement Warranty** (see inside front cover)

Protect Your Electronic Media

- Office Computer Back-Ups
- Home Computer Back-Ups
- Digital Pictures
- Music CDs
- DVDs
- Video Tapes
- One-hour fire protection for media products
- 150°F Fire Label

Microwave Safes

- One-hour fire safe label*
- Four compact sizes
- Center bolt down (hardware included)
- Single key or push button electronic locks for easy opening
- Programmable electronic lock with over-ride code
- Individual packaging for UPS type shipping
- Powder coated paint for increased durability
- Pull-out tray for storage of small items
- **Gardall Lifetime Replacement Warranty** (see inside front cover)

Gardall offers a full range of U.L. approved fire resistive microwave style safes. These safes are made to Gardall's exact specifications and brought to you with the same care and quality you have come to expect from Gardall. Microwave style safes come with either a single key or electronic style lock. All fire safes have plated interlocking bolts that extend into the safe walls to prevent tampering and removal of doors. The doors are precision built of extra heavy steel, full swinging on heavy duty hinges with interlocking, tongue and groove closure on all sides of the door frame. All safes come with a center bolt down hole and hardware to anchor the safe down.

Gardall's Heavy Duty Depositories

Visit us online at www.gardall.com
MADE IN THE U.S.A.

Designed to protect money collection where immediate deposit is required. Deposit can be made into the safe while the door is locked. Exclusive baffle design prevents contents from being removed through the entry opening. Hopper rotor is built into safe body and cannot be removed to gain access to the safe.

Heavy Duty Depositories Standard Design Benefits

- CLASS B Insurance Rating – 1/2" steel door with punch resistant bolt and relocking device to deter forcible entry. 1/4" steel body construction.
- Dual Custody Key Locks – Requires 2 keys to open door for absolute security.
- UL listed, Group II combination lock.
- Triple boltwork with independent relocking device.
- Relocking device – If back cover is knocked off of lock, the independent relock device is activated, preventing bolt withdrawal. Available on either combination or dual key operated doors.

- Rotary Hopper Capacity – 3¾" x 9" x 4" designed to fit most standard money bags and envelopes.
- Front Loading Capacity – designed to fit most large money bags – 2¾" x 10½" x 7½"
- 4 anchoring holes in base.

Standard color: Gray

All specifications are subject to change without notice.

To Operate Front Loading Depository

Pull drop door forward, place items to be deposited inside, release the drop door.

Deposited item should drop inside.

Open the drop door to be certain.

Against Fire and Theft**

Designed for complete protection of your valuables, a “B” rated burglary safe securely welded inside a 2-hour fire resistive safe.

Safe/Chest Combo
TL15 Chest with
2 Hour Fire Safe below

Standard Features

- Class “B” Rated interior safe construction. Door of inner safe will interchange with other Gardall safes key lock or combination.
- Fire Resistive Exterior Safe – Insulated to withstand 1850°F for 2 hours.
- UL listed, Group II combination lock
- Relocking Device – If back cover is knocked off of the lock, the independent relock device is activated, preventing bolt withdrawal.
- Boltwork Interior Door – Triple boltwork with independent relock device (except Models 1812 and 1818).
- Boltwork Exterior Door – Interlocking bolts extend into the safe walls, deadbolts on hinge side of door to deter forcible entry by removal of hinges.
- Hard plate on both interior and exterior door.
- Available with electronic push-button lock.

In-Room Safe

Standard Features

- 3 to 6 digit user code
- 3 bad codes puts lock in lock-out
- Easy-to-read LCD screen
- 4 anchoring holes (2 in back, 2 in bottom)
- Lock can be operated using the keypad or the credit card swipe slot
- Available with key override

**For large quantities,
please ask for a quotation.**

Gardall's new in-room safe has a durable powder coated finish and a superior electronic locking system. The highly reliable lock is a one-time use combination that is set by the user for each opening. It can also be set by swiping a credit card through the slot in the lock. Every lock has a manual by-pass key to open the lock if a combination is lost.
